"Public employee" also means one who is a member of the retirement system who continues to perform the same or similar duties under the direction of a contractor who has contracted to take over what before the date of such contract was a publicly operated function. The governmental unit with whom such contract has been made shall be deemed the employer for the purposes of administering Chapter 145. of the Revised Code.

Any civilian employees of the national guard and the air national guard, employed in or with a unit of the Ohio national guard or the Ohio air national guard, except those employed by the national guard bureau, shall be considered as employees of the adjutant general of the state for the purpose of Chapter 145. of the Revised Code, although such employees may be paid by federal funds. "Public employee" means also any person who performs or has performed services under the direction of an employer, as defined in division (D) of this section, notwithstanding his compensation for such services has been or is paid by one other than such employer. Credit for such service shall be included as total service credit, provided, the employee makes the payments required by Chapter 145. of the Revised Code, and his employer makes the payments required by sections 145.48 and 145.51 of the Revised Code.

In all cases of doubt, the public employees retirement board shall determine whether any person is a public employee, and its decision is final.

(B) "Member" means any person included in the membership of the public employees retirement system.

(C) "Head of the department" means the elective or appointive head of the several executive, judicial, and administrative departments, institutions, boards, and commissions of the state and local government as the same are created and defined by the laws of this state or, in case of a charter government, by such charter.

In addition, "employer" means the employer of employees described in division (A) of this section.

Provided, if an employee, who has been granted prior service credit by the public employees retirement system for service rendered prior to January 1, 1935, as an employee of a board of education, establishes, before retirement, one year or more of contributing service in the state teachers retirement system or the state public school employees retirement system, then such prior service ceases to be the liability of this system.

(E) "Prior service" means all service as a public employee rendered before January 1, 1935, and all service as an employee of any employer who comes within the state teachers retirement system or of the state public school employees retirement system or of any other retirement system established under the laws of this state rendered prior to January 1, 1935, provided that if the employee claiming such service was employed in any capacity covered by such other system after such other system was established, credit for such service may be allowed by the public employees retirement system only when the employee has made payment, to be computed on the salary earned from the date of appointment to the date membership was established in the public employees retirement system, at the rate in effect at the time of payment, and the employer has made payment of the corresponding full liability as provided by section 145.44 of the Revised Code. "Prior service" also means all service credited for active duty with the armed forces of the United States as provided in section 145.30 of the Revised Code.

IF AN EMPLOYEE WHO HAS BEEN GRANTED PRIOR SERVICE CREDIT BY THE PUBLIC EMPLOYEES RETIREMENT SYSTEM FOR SERVICE RENDERED PRIOR TO JANUARY 1, 1935, AS AN EMPLOYEE OF A BOARD OF EDUCATION, ESTABLISHES, BEFORE RETIREMENT, ONE YEAR OR MORE OF CONTRIBUTING SERVICE IN THE STATE TEACHERS RETIREMENT SYSTEM OR SCHOOL EMPLOYEES RETIREMENT SYSTEM, THEN SUCH PRIOR SERVICE CEASES TO BE THE LIABILITY OF THIS SYSTEM.

If the board determines that a position of any member in any calendar year prior to January 1, 1935, was a part-time position, the board shall determine what fractional part of a year's credit shall be allowed by the following formula:

(1) When such member has been either elected or appointed to an office the term of which was two or more years and for which an annual salary is established, the fractional part of a year's credit shall be computed as follows:

First, when such member's annual salary is one thousand dollars or less the service credit for each such calendar year shall be forty per cent of a year.

Second, for each full one hundred dollars of annual salary

above one thousand dollars, such member's service credit for each such calendar year shall be increased by two and one-half per cent.

(2) When such member is paid on a per diem basis the service credit for any single year of such service shall be determined by using the number of days of service for which such compensation was received in any such year as a numerator and two hundred fifty days shall be used as a denominator.

(3) When such member is paid on an hourly basis the service credit for any single year of such service shall be determined by using the number of hours of service for which such compensation was received in any such year as a numerator and two thousand hours shall be used as a denominator.

(F) "Contributor" means any person who has an account in the employees' savings fund created by section 145.23 of the Revised Code.

(G) "Beneficiary" or "beneficiaries" means the estate or a person or persons who, as the result of the death of a member or retirant, qualify for or are receiving some right or benefit under the provisions of Chapter 145. of the Revised Code.

(H) "Total service credit," except as provided in section 145.37 of the Revised Code, means all service of a member of the public employees retirement system since last becoming a member and, in addition thereto, restored service credit as provided by section 145.31 of the Revised Code; all his prior service credit; and all his military service credit computed as provided in Chapter 145. of the Revised Code. In addition, "total service credit" includes any period, not in excess of three years, during which a member was out of service and receiving benefits from the state insurance fund. For the exclusive purpose of satisfying the service credit requirement and of determining eligibility for benefits under sections 145.32, 145.33, 145.35, and 145.36 of the Revised Code, "five or more years of total service credit" means sixty or more calendar months of contributing membership in this system. Where a member is an employee of a municipality, college, or state university which formerly operated its own retirement plan for its employees or a part of its employees, "five or more years of total service credit," as used in section 145.32 or 145.33 of the Revised Code, means sixty or more calendar months of employment covered by such municipal, college, or state university retirement plan or by this system or by combination thereof. **FOR THE PURPOSES OF THIS DIVISION, "ITS OWN RETIREMENT PLAN" FORMERLY OPERATED BY A COLLEGE OR UNIVERSITY INCLUDES THE TEACHERS' INSURANCE AND ANNUITY ASSOCIATION.** "One and one-half years of contributing service credit," as used in division (B) of section 145.45 of the Revised Code, also means eighteen or more calendar months of employment

by a municipality which formerly operated its own retirement plan for its employees or a part of its employees, providing all employees of such municipal retirement plan who have eighteen or more months of such employment shall, upon establishing membership in the public employees retirement system, make a payment of the contributions they would have paid had they been members of this system for the eighteen months of employment preceding the date membership was established. When such payment has been made by all such employee-members, a corresponding payment shall be paid into the employers' accumulation fund by the said municipality as the employer of such employees. Where a member is also a member of the state teachers retirement system or the public school employees retirement system, or both, except in cases of retirement on a combined basis pursuant to section 145.37 of the Revised Code, service credit for any period shall be credited on the basis of the ratio that contributions to public employees retirement system bears to total contribution in all state retirement systems. Not more than one year of credit may be given for any period of twelve months.

(I) "Regular interest" means interest at such rates for the respective funds and accounts as the public employees retirement board may determine from time to time except as follows:

(1) Subsequent to December 31, 1958, the retirement board shall discontinue the annual crediting of current interest to the individual accounts of members. Such non-crediting of current interest shall not affect the rate of interest at retirement guaranteed under this division.

(2) The rate of interest credited on a member's contributions at retirement shall be four per cent per annum, compounded annually, to and including December 31, 1955; three per cent per annum, compounded annually, from January 1, 1956 to and including December 31, 1963; and thereafter FROM JANUARY 1, 1964 TO AND INCLUDING DECEMBER 31, 1969 shall be three and one-quarter per cent per annum, compounded annually, AND THEREAFTER SHALL BE FOUR PER CENT PER ANNUM, COMPOUNDED ANNUALLY.

ANNUM, COMPOUNDED ANNUALLY, FOR MEMBERS RETIRING FROM JANUARY 1, 1964 TO DECEMBER 31, 1969, INCLUSIVE. Interest on contributions from members within any one calendar year shall begin on the first day of the calendar year next following and shall be computed at the end of each calendar year, except in the case of a member who retires before the end of the year.

(J) "Accumulated contributions" means the sum of all amounts deducted from the compensation of a member and credited to his individual account in the employees' savings fund together with any current interest thereon, but shall not include the interest adjustment at retirement.

(K) Effective June 30, 1959, "final average salary" means the highest average annual compensation of a member during any five years of contributions and shall be determined by dividing the total earnings as a public employee during such period by the service credited during such period. Fees and commissions, EXCEPT THOSE PROVIDED UNDER SECTION 507.09 OF THE REVISED CODE, paid to employees for special services, over and above regular salary payments, or fees and commissions paid as sole compensation for services, shall not be used in computing "final average salary." Provided, if a member has at least three years, but less than five years, of total service credit within the ten year period immediately preceding termination of contributions, then the final average salary shall not be less than the average annual compensation during such period as determined by dividing the total compensation as a public employee during such period by the service credited to him during that period. Provided, that the "final average salary" may not exceed the actual average earnings of a member during the "final average salary" period. Except as provided in division (Z) of this section, when a member has been elected or appointed to an office, the term of which is two or more years, for which an annual salary is established and in the event that the salary of such an office is increased and the member holding such office is denied the additional salary by reason of any constitutional provision prohibiting an increase in salary during said term of office, such member may elect to have the amount of his contributions calculated upon the basis of the increased salary for his office. A member so electing shall notify the board which shall compute the back payment of the additional amount such member would have contributed had he received such increased salary for the office he holds plus interest at the rate of three and one-quarter per cent per annum, compounded annually to the date of payment, subject to such rules and regulations relative to the amount and manner of payment as may be adopted by the board, plus an additional payment of an equivalent amount,

which shall be paid into the employers' accumulation fund. Such additional payment into the employers' accumulation fund shall, in the event of service termination and application for refund of service termination and application for refund of contributions be considered as accumulated contributions of such member. Upon the payment of the contributions as herein provided, the increased annual salary as provided by law for such office for the period during which the member paid contributions thereon, shall be considered his annual compensation for the purpose of computing his "final average salary."

(L) "Annuity" means payments for life derived from contributions made by a contributor and paid from the annuity and pension reserve fund as provided in Chapter 145. of the Revised Code. All annuities shall be paid in twelve equal monthly installments.
