

Pg 1 of 1

Sec. 145.36. Upon disability retirement, a [member] RETIRANT shall receive a retirement [allowance] BENEFIT in an annual amount which shall consist of:

(A) An annuity having a reserve equal to the amount of the [employee's] RETIRANT'S accumulated contributions;

(B) A pension which shall be the difference between his annuity and an equal amount determined by multiplying the total service credit of [such member] THE RETIRANT, and in addition thereto the projected number of years and fractions thereof between the effective date of his disability retirement and attained age sixty, assuming continuous service, by eighty-six dollars or two per cent of his final average salary whichever is greater, multiplied by his years of completed and projected service credit. Where the [member] RETIRANT does not retire for disability under the provisions of section 145.37 of the Revised Code and is receiving a disability retirement [allowance] BENEFIT from either the state teachers retirement system or the public school employees retirement system, then [such member] THE RETIRANT shall not be eligible for service credit based upon the number of years and fractions thereof between the date of disability and attained age sixty as provided for in this division. In no case shall a disability retirement [allowance] BENEFIT exceed [sixty] SEVENTY-FIVE per cent of his final average salary.

A year of service for the purpose of disability retirement is a complete year of full-time employment, or the equivalent thereof. The public employees retirement board is the final authority in determining the eligibility of a member for such form of retirement.
