(4) The compensation of any superannuate so employed does not exceed that for persons employed for substitute service.

Such employment shall not be considered as service qualifying for continuing contract status and the salary of a superannuate so employed shall be fixed at an amount at least equal to that paid other teachers in the district with similar training and experience for the same type of service. A superannuate employed as a full-time teacher shall make contributions as provided in section 3307.51 of the Revised Code. If a superannuate should be paid any amount of pension allowance to which he is not entitled under this section, such amount shall be repaid to the system by the superannuate, or shall be recovered by a withholding from his subsequent monthly retirement allowance checks.

The retirement board of the state teachers retirement system may make the necessary rules to carry into effect this section and to prevent the abuse of the rights and privileges thereunder.
