(A) "Employer" means boards of education, school districts, joint vocational districts, educational institutions, technical colleges, state, municipal, and community colleges, community college branches, universities, university branches, other educational institutions, or other agencies within the state by which an employee is employed and paid, including any organization using federal funds, provided such federal funds are disbursed by an employer as determined by the above. In all cases of doubt the school employees retirement board shall determine whether any employer is an employer as defined in this chapter and its decision shall be final.

(B) "Employee" means any person employed by an employer as defined in division (A) of this section in a position for which he is not required to have a certificate issued pursuant to sections 3319.22 to 3319.31 of the Revised Code; any person who performs a service common to the normal daily operation of an educational unit even though such person is employed and paid by one who has contracted with an employer to perform such services, and the contracting board or educational unit shall be the employer for the purposes of administering the provisions of this chapter; and any person, not a faculty member, employed in any school or college or other institution wholly controlled and managed, and wholly or partly supported by the state or any subdivision thereof, the board of trustees or other managing body of which shall accept the requirements and obligations of this chapter. In all cases of doubt the school employees retirement board shall determine whether any person is an employee, as defined in this division, and its decision is final.

(C) "Prior service" means all service rendered prior to September 1, 1937:

- (1) As an employee as defined in division (B) of this section;
- (2) As an employee in a capacity covered by the public employees retirement system or the state teachers retirement system;
- (3) As an employee of an institution in another state, service credit for which was procured by a member under the provisions of section 3309.31 of the Revised Code.

Prior service, for service as an employee in a capacity covered by the public employees retirement system or the state

teachers retirement system, shall be granted a member under qualifications identical to the laws and regulations applicable to service credit in such systems.

Prior service shall not be granted any member for such service rendered in a capacity covered by the public employees retirement system, the state teachers retirement system and this system in the event such service credit has, in the respective systems, been received, waived by exemption, or forfeited by withdrawal of contributions, except as provided in this chapter.

If a member, who has been granted prior service should, subsequent to September 16, 1957 and before retirement, establish three years of contributing service in the public employees retirement system, or one year in the state teachers retirement system, then such prior service granted shall become, at retirement, the liability of such other system, if the prior service or employment was in a capacity which is covered by that system.

The provisions of this division shall not cancel any prior service granted a member by the school employees retirement board prior to August 1, 1959.

(D) "Total service," "total service credit," or "Ohio service credit" means all contributing service of a member of the school employees retirement system, and all his prior service, computed as provided in this chapter, AND ALL SERVICE ESTABLISHED PURSUANT TO SECTION 3309.33 OF THE REVISED CODE. (I) "Interest" as specified in division (E) of section 3309.60 of the Revised Code, means interest at such rates for the respective funds and accounts as the school employees retirement board may determine from time to time except as follows: (1) The rate of interest credited on employee contributions at retirement shall be four per cent per annum, compounded annually, to and including June 30, 1955; three per cent per annum, compounded annually, from July 1, 1955 to and including June 30, 1963; and, three and one-quarter per cent per annum, compounded annually through June 30, 1966; and thereafter, shall be four per cent per annum compounded annually until a change in such amount is recommended by the system's actuary and approved by the retirement board. Subsequent to June 30, 1959, the retirement board shall discontinue the annual crediting of current interest on a member's accumulated contributions. Such noncrediting of current interest shall not affect the rate of interest at retirement guaranteed under this division. (2) In determining the reserve value for purposes of computing the amount of the member's annuity, the rate of interest used in the annuity values shall be four per cent per annum through September 30, 1956; and, three per cent per annum compounded annually from October 1, 1956 through June 30, 1963; and three and one-quarter per cent per annum compounded annually from July 1, 1963 through June 30, 1966; and, thereafter, shall be four per cent per annum compounded annually until a change in such amount is recommended by the system's actuary and approved by the retirement board. In the purchase of out-of-state service credit as provided in section 3309.31 of the Revised Code, and in the purchase of additional annuity, as provided in section 3309.47 of the Revised Code, interest shall be computed and credited to reserves therefor at such rate as the school employees retirement board shall fix as regular interest thereon.

(J) "Accumulated contributions" means the sum of all amounts deducted from the compensation of a member and credited to his individual account in the employees' savings fund together with any regular interest credited thereon at the rates approved by the retirement board prior to retirement.

(K) "Final average salary" means the sum of the annual earnings for the three highest years of compensation for which contributions were made by the member, divided by three. If the member has a partial year of contributing service in the

year in which he terminates his employment and such partial year is at a rate of compensation which is higher than the rate of compensation for any one of the highest three years of annual earnings, the board shall substitute the compensation earned for such partial year for the compensation earned for a similar fractional portion in the lowest of the three high years of annual earnings before dividing by three. If a member has less than three years of contributing membership, the final average salary shall be the total compensation divided by the total number of years, including any fraction of a year, of contributing service.
