

Service credit.

Sec. 3309.30. For service subsequent to June 30, 1955 the retirement board shall credit a year of service credit to any member employed on a full-time basis for nine or more months of service within a year. For *contributing and prior* service prior to July 1, 1955 only eight or more months of service on a full-time basis within a year will be necessary for a year of service credit. The board shall fix and determine by appropriate rules and regulations how much credit shall be given for parts thereof, but in computing such service, or in computing final average salary, it shall credit not more than one year for all service rendered in any year.

Where a member is also a member of the state teachers retirement system, the public employees retirement system, or both, then at retirement, *other than retirement on a combined basis as provided in section 3309.35 of the Revised Code*, adjustment shall be made so that *** service credit for any period shall be credited on the basis of the ratio that contributions to the school employees retirement system bears to the total contributions in all the retirement systems *during that period*.
