The board shall determine whether the member qualifies for disability retirement and its decision shall be final. The board shall consider the written medical or psychological report, opinions, statements, and other competent evidence in making its determination. If the incapacity is a result of heart disease or any cardiovascular disease of a chronic nature, which disease or any evidence of which was not revealed by the physical examination passed by the member on entry into the patrol, the member is presumed to have incurred the disease in the line of duty as a member of the patrol, unless the contrary is shown by competent evidence.

If the board determines that a disability pension recipient is not obtaining the medical or psychological treatment or the board does not receive a required medical or psychological report, the disability pension shall be suspended until the treatment is obtained, the report is received by the board, or the board's health-care professional certifies that the treatment is no longer helpful or advisable. Should the recipient's failure to obtain treatment or submit a medical or psychological report continue for one year, the recipient's right to the disability benefit shall be terminated as of the effective date of the original suspension.

The board shall annually examine the information submitted by the recipient. If a recipient refuses to file the statement or information, the

disability pension shall be suspended until the statement and information are filed. If the refusal continues for one year, the right to the pension shall be terminated as of the effective date of the original suspension.
